**REQUESTED FEES AND REIMBURSEMENT OF EXPENSES**

15. All services for which A&M requests compensation were performed for Puerto Rico Highways and Transportation Authority (“HTA”). The time detail for the Third Interim Fee Application Period is attached hereto as Exhibit E. This Third Interim Fee Application contains time entries describing the time spent by each professional during the Third Interim Fee Application Period. To the best of A&M’s knowledge, this Third Interim Fee Application substantially complies with the applicable provisions of PROMESA, the Bankruptcy Rules, the Local Bankruptcy Rules, and the Second Interim Compensation Order. A&M’s time reports are entered and organized by task and by professional performing the described service in 1/10 of an hour increments.

16. A&M incurred no expenses for the Third Interim Fee Application Period as presented here to as Exhibit F.

17. The services rendered by A&M during the Third Interim Fee Application can be grouped into the categories set forth below. A&M attempted to place the services provided in the category that best relates to such services. However, because certain services may relate to one or more categories, services pertaining to one category may in fact be included in another category. These services performed are generally described below by category, and as set forth in the attached time detail attached hereto as Exhibit G. This Exhibit G also identifies the professional who rendered services relating to each category, along with the number of hours for each individual and the total compensation sought for each category.

**SUMMARY OF SERVICES PERFORMED**

18. This Third Interim Fee Application covers the fees incurred during the Third Interim Fee Application Period with respect to services rendered as advisor to the Oversight

Board in its role as representative for HTA. A&M believes it is appropriate to be compensated for the time spent in connection with these matters, and set forth a narrative description of the services rendered for the Debtors and the time expended, organized by project task categories as follows:

**A. Puerto Rico Highways and Transportation Authority – Claims Administration and Objections**

19. During this period, A&M:

- a. analyzed approximately 1,000 Accounts Payable and Litigation related claims to prepare for the filing of the Alternative Dispute Resolution (ADR) motion. Counsel utilized this data to identify claims which could potentially be resolved through the ADR process and set priorities for further Claims review. Additionally, A&M reviewed the draft ADR motion and provided comments to counsel;
- b. reviewed Bondholder Claims in preparation of listing them on Omnibus Objections:
  - i. reviewed Claim support details for approximately 115 Claims which did not include CUSIP numbers to try and identify other information to determine type of bond being claimed. If no further support was identified, prepared claim for deficient Claim objection,
  - ii. reviewed approximately 435 Claims to validate if CUSIP numbers provided were also present in the Master Bond Proofs of Claim filed by the Administrative Agent,
  - iii. reviewed approximately 570 Claims to ensure asserted liabilities were limited to “loss of principle and interest” only. Additionally,

identified Claims which were asserting guarantees or other bases that would require a substantive objection;

- c. reviewed the supporting documentation of approximately 60 Human Resource related claims to categorize specific liability being asserted.
- d. analyzed approximately 75 Human Resource related claims to prepare for the filing of the Administrative Claims Resolution (ACR) motion. Counsel utilized this data to identify claims which could potentially be resolved through the ACR process and set priorities for further Claims review.
- e. reviewed approximately 25 Proofs of Claim and supporting details to identify Claims which were duplicative of previously filed Proofs of Claim;
- f. prepared and filed 13 Non-Substantive claim objections affecting 554 Claims. Once ordered, these objections will reduce the asserted value of claims on the official court register by over \$2.5 billion dollars;
- g. created and updated a claims summary analysis by claim type to allow counsel to review the claims groupings and confirm A&M's proposed treatment for each claim type;
- h. performed creditor outreach to collect missing information for deficient proofs of claim;
- i. provided regular updates of the claims reconciliation progress to representatives of the Title III entities, AAFAF, the Oversight Board, and their respective advisors.

In conjunction with this category, A&M expended approximately 306.8 hours during the Application Period, for a total of \$149,835.00, prior to any fee reduction.

#### **B. Puerto Rico Highways and Transportation Authority – Fee Applications**

20. During the Third Interim Fee Application Period, A&M prepared its Second Interim Fee Application as required by the Second Amended Interim Compensation Order. In conjunction with this category, A&M expended approximately 19.6 hours during the Application Period, for a total of \$10,045.00, prior to any fee reduction.

**C. Discounts Agreed to By A&M and the Oversight Board**

21. A&M and the Oversight Board in its role as representative for HTA had previously agreed to a ten-percent discount of fees based on the Engagement Letter.

**CERTIFICATE OF COMPLIANCE AND REQUEST FOR WAIVER**

22. Attached hereto as Exhibit H is a declaration of Julie M. Hertzberg, the undersigned representative of A&M. To the extent that the Third Interim Fee Application does not comply in all respects with the requirements of the aforementioned rules, A&M believes that such deviations are not material and respectfully requests that any such requirements be waived.

**NOTICE**

23. Pursuant to the Interim Compensation Order, notice of this Application has been filed in HTA's and the jointly-administered Commonwealth of Puerto Rico's Title III cases and served upon:
